Re: Corner Mart 10, 798 S. Church St., Greenville, SC  
UST Permit #04181  
Release #2 Reported September 2, 2003  
IGWA Report Received January 11, 2006  
No Further Action  
Greenville County

Dear Mr. Cosgrove:

The Underground Storage Tank (UST) Program of the South Carolina Department of Health and Environmental Control (SCDHEC) has reviewed the IGWA Report and all information on-file for the referenced release. As concentrations of chemicals of concern (CoC) are below established risk-based screening levels, the reported release does not present a significant threat to human health or the environment. Therefore, no further action will be required at this time. However, if any contamination becomes evident which can be attributed to this UST system, the Program may, under authority established in the South Carolina UST Control Regulations R.61-92 Part 280.52/280.73, require further site rehabilitation activities.

**The decision for requiring no further action pertains only to the UST release reported on September 2, 2003 and is based solely on the information on-file and provided in the referenced report. The Program intends to report this closure to the United States Environmental Protection Agency (EPA). If for any reason you disagree with this decision not to require any further site rehabilitation activities, please contact me in writing within thirty (30) days of the date of this letter.**

On all correspondence related to this facility, please reference UST Permit #04181. Should you have any questions, feel free to contact me by telephone at (803) 896-6629, by fax at (803) 896-6245, or by email at [hydricpa@dhec.sc.gov](mailto:hydricpa@dhec.sc.gov).

Sincerely,

Patricia Hydrick, Hydrogeologist

Re: Underground Storage Tank (UST) Closure  
**Permit ID#:** 04181  
**Facility:** Piedmont Petroleum #10, 798 South Church St, Greenville, SC

Dear Mr. Inafuku:

The South Carolina Department of Health and Environmental Control (SCDHEC) received the 30-day permanent closure notification for the UST system referenced above. Please coordinate the activity with this office by calling (803) 896-6240 during normal business hours:

- 1) at least 10 days before the INTENDED closure date; and,
- 2) at least 48 hours before the ACTUAL closure date,

to give the UST field staff an opportunity to attend the closure and to complete a routine compliance inspection.

Other local agencies you may need to coordinate with on this activity include: the fire marshal, building inspector or sewer inspector. Contact the local governing agency(s) as appropriate.

The UST regulations require an assessment before the closure is complete (Section 280.71(a)). **A closure report must be submitted no later than 60 days from the date of the tank closure.** Please use the enclosed assessment guidelines in preparing the closure assessment report. A completed copy of Appendix 2 of the assessment guidelines will provide the Department with all information needed to evaluate the report. Please note that Section IV (certification) must be signed by the owner of the UST system.

On correspondence concerning this facility, please reference the permit ID# listed above.

Sincerely,

Michelle Dennison
